CLIENT CATEGORISATION

For Retail Clients

Unless you receive confirmation in writing to the contrary, in all our dealings on investment matters you will be treated as a Retail Client. This means that you are afforded the highest level of protection under the regulatory system and should have the right to take any complaint to the Financial Ombudsman Service (FOS).

Where we have categorised you other than as a 'retail client', you may request re-categorisation under a client category which benefits from a higher degree of protection. However, we reserve the right to agree to such a re-categorisation on a case-by-case basis, and where we agree to do so it does not necessarily mean that you will have a right of access to the Financial Ombudsman Service.

Further information in respect of the Financial Ombudsman Service is available on their website at the address below:

We will confirm to you in writing the basis of our service and the reason for recommending any transaction transmitted or executed on your behalf. Where you agree to an ongoing service we will provide regular reports to you regarding that service. We will agree and confirm the frequency and timing of those reports based on your needs. The extent of any ongoing review will be determined by your needs.

We will also make arrangements for all your investments to be registered in your name unless you first instruct us otherwise in writing. We will forward to you all documents showing ownership of your investments as soon as practicable after we receive them; where a number of documents relating to a series of transactions is involved, we will normally hold each document until the series is complete and then forward them to you.

NOMINEE & SAFE CUSTODY SERVICES

We do not safeguard or administer client assets but we may arrange business through platforms, which will provide custody services for your assets. Where this is the case, the legal title of investments will be registered in the name of the third party's nominee.

Transactions will be transmitted to the fund supermarket, investment wrap platform, or similar third party investment institution for them to execute. Money or transferred assets will be placed immediately with that third party for investment – we will never hold the assets for you. We will provide you with the relevant account opening details for the identified third party such as their Terms & Conditions, Nominee and Safe Custody Service, Best Execution Policy, Execution Venues and Conflicts of Interest Policy (or equivalent documents). The legal title of investments will be in the name of the third party's nominee.

For non-platform business we will make arrangements for your investments to be registered in your name unless you first instruct us otherwise in writing.

RIGHT TO WITHDRAW

In the case of many retail investment products – such as life assurance contracts, personal pension schemes, investment bonds, and collective investment arrangements (e.g. unit trusts), a right to withdraw or cancel the contract within a specified period is normally provided. Details of such rights are ordinarily contained in the product literature (e.g. Key Features document) and/or we may provide details of such rights in a separate communication.

In the case of any non-retail investment products e.g. an ISA wrapper, we will inform you in writing of any right to withdraw or cancel you may have or, if it is the case, we will inform you in writing that no such rights will apply.

TERMINATION OF AUTHORITY

You or we may terminate our authority to act on your behalf at any time, without penalty. Notice of this termination must be given in writing and will take effect from the date of receipt. Termination is without prejudice to any services already provided / transactions already initiated, which will be completed according to the Client Agreement unless otherwise agreed in writing. You will be liable to pay for any transactions made and / or services carried out prior to termination and any adviser charges or other fees which may be outstanding.

CONFLICTS OF INTEREST

Occasions may arise where the firm, an employee, or other associates of the firm has competing professional or personal interests which may prevent these services being provided to clients in an independent or impartial manner.

We will take all appropriate steps to prevent conflicts of interest from occurring in line with the firm's conflicts of interest policy. However, there may be occasions where a conflict of interest cannot be prevented. Where this is the case, we will disclose to you the nature of the conflict and the steps that we will take to mitigate the risks that you will be treated unfairly as a result of any conflicts identified.

We will make you aware of any conflicts of interest before the provision of services to enable you to choose whether you still wish to proceed with services. A copy of the firms' conflict of interest policy is available on request.

We may on occasion receive minor non-monetary benefits from third parties such as product providers e.g. food and drink provided at a provider training event. Where relevant, any minor non-monetary benefits received will not conflict with our duty to act in your best interests.

BEST EXECUTION POLICY

It is in the interests of our clients and the firm that we obtain the best possible result when placing orders with other firms (e.g. third party brokers) for the execution of client orders or when transmitting orders on behalf of clients for particular investments – e.g. shares. We are required under the Rules of the Financial Conduct Authority to take all sufficient steps to provide 'best execution' when carrying out such transactions.

Where we place or transmit orders for such investments on behalf of our clients, we may utilise the services of a third party broker and base our decision to place or transmit an order on the price and cost of execution of the order. For orders in collective investment schemes (e.g. unit trust), however, the price of units or shares in the scheme is normally set by the scheme operator or manager and as such we have little influence over the price available.

Full details of our best execution arrangements are provided in our Best Execution Policy, a copy of which can be provided on request.

Investors Risk / Reward Profile:

We recognise ten basic risk profile descriptions that are listed below for clients which we will identify after completing a Dynamic Planner risk profiler questionnaire. Prior / in addition to the questionnaire you may wish to carefully consider which category best describes your attitude to risk / reward. This is extremely important and will form an integral part of any advice given and part of your assessment for 'Capacity for Loss'.

Category:

- 1 – Lowest.** The 'lowest' risk profile shows that you want to take the least amount of investment risk possible with your money. A portfolio that matches this risk profile will be designed to reduce, as far as possible, falls in value. But the returns you make are also likely to be low. If inflation is higher than the rate of return on your investments, the spending power of your money will be reduced.
- 2 – Very Low.** A 'very low' risk profile shows that your willingness and ability to accept investment risk is well below average. Any falls in the value of a portfolio that matches this risk profile should be very small. However, potential returns are also likely to be modest. So if inflation is higher than the rate earned on the investment, the spending power of you money will be reduced.
- 3 – Low.** A 'low' risk profile shows that your willingness and ability to accept investment risk is below average. Any falls in the value of a portfolio that matches this risk profile should usually be small. However, potential returns are also likely to be modest. So if inflation is higher than the rate earned on the investment, the spending power of your money will be reduced.
- 4 – Lowest Medium.** A 'lowest medium' risk profile shows that your willingness and ability to accept investment risk is just below average. A portfolio matching this risk profile is likely to experience both rises and falls in value. So while there is potential for returns from your investment to match or go above the rate of inflation you also need to accept that your investment could fall in value, particularly in the short term..
- 5 – Low Medium.** A 'low medium' risk profile shows that your willingness and ability to accept investment risk is about average. A portfolio that matches this risk profile is likely to experience both rises and falls in value. So while there is good potential for returns from your investment to match or go above the rate of inflation you also need to accept that your investment could fall in value, particularly in the short term.
- 6 – High Medium.** A 'high medium' risk profile shows that your willingness and ability to accept investment risk is slightly above average. A portfolio that matches this risk profile is likely to experience some significant rises and falls in value. So while there is good potential for returns from your investment to match or go above the rate of inflation you also need to accept that your investment is likely to fall in value from time to time, particularly in the short term.
- 7 – Highest Medium.** A 'highest medium' risk profile shows that your willingness and ability to accept investment risk is well above average. A portfolio that matches this risk profile is likely to experience significant rises and falls in value. So while there is strong potential for returns from your investment to match or go above the rate of inflation you also need to accept that your investment could fall in value from time to time, particularly in the short term.
- 8 – High.** A 'high' risk profile shows that you are willing and able to take a high level of risk with your investments. A portfolio that matches this risk profile is highly likely to experience both significant rises and falls in value. So although there is very strong potential for returns from your investment to go above the rate of inflation you also need to accept that your investment is very likely to fall in value from time to time, particularly in the short term.
- 9 – Very High.** A 'very high' risk profile shows that you are willing and able to take a very high level of risk with your investments. A portfolio invested to match this risk profile is highly likely to experience both significant rises and falls in value. So although there is a very strong potential for returns from your investment to go above the rate of inflation you also need to accept that your investment is very likely to fall in value from time to time, particularly in the short term.
- 10 – Highest.** A 'highest' risk profile shows that you are willing and able to take an extremely high level of risk with your investments. A portfolio invested to match this risk profile will probably experience very significant rises and falls in value. So although there is extremely strong potential for returns from your investment to go above the rate of inflation it is very likely that your investment will fall sharply in value from time to time especially in the short term.
