Level of Service

We offer four distinct levels of service to our clients. These include three service programmes and a transactional option.

WHAT DOES THIS MEAN FOR ME?

We aim to provide all clients with clear financial direction. Our aim is to reduce future barriers to these objectives and to maximise the opportunities for achieving your goals.

In simple terms we:-

- **ASSESS**
- **PLAN**
- **PRIORITISE**
- **IMPLEMENT**
- **REVIEW**

The Financial Conduct Authority does not regulate taxation advice.

ASSESS – Client Responsibility

In order to best serve you we need a thorough understanding of your personal circumstances and will request you supply us with such information, enabling us to provide the advice and services requested. We may need to contact you for further information and ask your permission to liaise with your other professional advisers (Accountant, Solicitor, Investment Manager, etc). All advice provided will be based on this core information. It is therefore, vital to ensure we have a complete and accurate record.

PLAN – Research and Report Preparation

Using internal and external technical research we will prepare a financial plan to suit your individual objectives. This will also be assessed against your attitude to risk, your time horizon, associated costs, past performance, asset allocation, expected returns and capacity for loss.

We will endeavour, wherever possible, to consider tax planning opportunities and in this respect we will often wish to liaise with your other tax advisers.

IMPLEMENTATION – Plan execution

Once the specifics of your personal plan are agreed, we will initiate this by procuring the policies we discussed, implementing the protection and wealth accumulation strategy we have developed.

REVIEW – Meetings

Once your plan is in place, we will agree a process for regular reviews with you. We will normally recommend at least an annual review. The purpose of these meetings is to review your plan and your personal circumstances, thus establishing where you are in relation to your objectives.

Strategy Fee

This covers our initial fact finding meeting of your circumstances, initial advice and your individual strategy. This is dependent on the amount of work required at outset. If you decide to proceed to implementation, we may offset the Strategy Fee against any fee/commission which may be paid by you or the product provider.

Implementation Fee

This covers the cost of establishing product, to achieve the strategy. Generally, this will be based on a fixed fee or percentage agreed with you at outset, and can be paid directly by you or by a product provider.

Ongoing Review Fee

This covers the cost of our ongoing advice, review and service. This fee depends on which level of service you choose. This fee can be met either by you or by deduction from your funds and is normally payable in advance or monthly via standing order, however, it can be ongoing by deduction from your funds, by the Provider.

Additional Information

Our typical charges are detailed in our Initial Disclosure documents and are based primarily on which level of service you require.

TRANSACTIONAL SERVICE

The Transactional Service is for those clients who do not wish to have their affairs actively managed. Nor do they wish to pay for an adviser to provide regular reviews. Instead, any work done will be charged as and when requested, in line with our published scale of charges.

Transactional Service has the following implications:-

- We will not proactively contact clients if we believe legislative or economic changes may be relevant. Rather, Transactional Clients take responsibility for determining when such events necessitate help from a professional and they will need to contact us accordingly.
At such time there will be a fee for updating the client file, to achieve a level of information necessary to give advice/analysis/recommendations. Thereafter, any work will be billed at an agreed rate or cost.
- As we are not maintaining a client file we will not produce reports, annual or otherwise, unless as part of billed work.
- Subject to agreement, we will charge an annual fee, based on the value of investments, to provide an annual portfolio rebalancing service.

In our experience, this service is suitable for clients who are looking for a one-off transaction, with no ongoing review meetings.

At any time you can move from this proposition to one of our three service programmes if appropriate.

We may receive ongoing remuneration on certain policies and portfolios. This is used to help cover administrative costs.

The fees for this service is:

Service charge:

Transactional - Typically £199.00 + Initial Adviser Charge based on the advice required.

Please see our Client Agreement Document and Initial Disclosure documents which details our fee options.
